Project: Chattanooga, TN

Dear Sir,

Thank you for your inquiry into how BASF Wall Systems' products can contribute to LEED credits. Some of the products available from BASF can contribute to Material and Resources MR Credit 4 (Recycled Content) and MR Credit 5 (Regional Materials).

**StuccoBase Concentrate** is manufactured in Hoschton, GA; less than 500 miles from the project site. Its contribution to LEED credit MR 5 is noted in the table below. **StuccoBase Concentrate** contributes to LEED credit MR 4 with **17% pre-consumer recycled materials**.

**Adhesive Base Coat, Stuccoprime, Limestone Finish Coat and Finestop** are all manufactured in Acworth, GA; less than 500 miles from the project site. Each product's respective contribution to LEED credit MR 5 is noted in the table below.

Material	Recycled Content relative to LEED MR Credit 4.1	Regional Materials* relative to LEED MR Credit 5.1 & 5.2	Manufacturing Location
Adhesive Base Coat	n/a	71%	Acworth, GA
Stuccoprime	n/a	75%	Acworth, GA
Limestone Finish Coat	n/a	74%	Acworth, GA
Finestop	n/a	72%	Acworth, GA
StuccoBase Concentrate	17%	97%	Hoschton, GA

This letter constitutes official BASF confirmation of both Recycled Content and Regional Materials that may be used to substantiate LEED claims made under MR Credit 4 and 5.

If you have any questions regarding the LEED status of BASF products, or if I can be of assistance in any other way, please feel free to call or email.

Regards,

Richard Martens, LEED AP
